• Blue Eyed Beauty

• Voltage White

• Voltage Yellow

(Petunia x Hybrid)

PETUNIA

This flower likes full sun, drained soil and can tolerate a light frost. It grows 10-12" and needs at least 13" of separation from others which will also decrease disease.

• Limbo Blue

• Limbo Red

• Limbo Rose

• Limbo Salmon

• Limbo White

(*Salvia Splendens*)

SALVIA

This plant has bright blooms and prefers partial sun. It is not a cold hardy plant and reliably blooms over an extended period of time. Salvia is a great butterfly attractant and also a hummingbird attractant. This works great as a mass planting and can be planted closer in proximity due to growth.
